

CCH Tagetik

Fully integrated Financial & Corporate Performance Management

What is CCH Tagetik?

CCH Tagetik is a fully integrated Financial & Corporate Performance Management platform. Its innovative technology leverages your existing investments in databases, applications and other technologies, seamlessly fitting into any business or IT environment to provide you with robust financial solutions by technology.

Traditional approaches to financial corporate performance management require multiple products, IT involvement and complex integration. CCH Tagetik liberates you from the limitations of past performance reporting platforms by delivering the next generation financial reporting platform designed with finance in mind. It is a single, unified financial analysis platform which puts finance back where it should be – in control, informed, and influential.

Get a faster close, more forward looking-planning and in-depth analytics by going beyond financial performance and combining operational and financial data in a unified platform, owned by finance. The Finance Transformation Platform enables digital transformation by unifying a

powerful data engine with financial consolidation & close, budgeting & planning, profitability & advanced analytics and regulatory solutions and granular data.

High volumes of data are easily turned into information, actionable insight and value creation enabling Finance to support business operations by anticipating risks and opportunities. True driver-based planning, integrated business planning (strategic, financial, operational), integrated reporting, regulatory reporting, more detailed profitability analysis and forward looking planning can be done all in one solution. Finance and business operations are aligned with a centralized source to drilldown for variance analysis and modelling at the lowest level on any process. Powered by the Analytic Information Hub, Finance can modernize and prepare for the future with a foundation for AI, machine learning and predictive analytics.

Now Finance has, in one solution, all the financial processes and the information to gain better insights, enable sustainable value creation and make faster decisions to drive the business to where it needs to go.

“Today’s finance teams need to ensure that business decisions are backed by real-time numbers and solid analysis. The ability to provide insight from ever-increasing amounts of data from a wide range of sources is critical to success. Modern CFOs are stepping out of their traditional roles and embracing innovation – from redefining how finance professionals interact with business stakeholders to the deployment of the latest technology.”

Manuel Vellutini, EVP Commercial, CCH Tagetik

Key Features & Benefits

Unified Platform

A single data repository. A single solution. Complete visibility and control of corporate data to address multiple stakeholder needs. From consolidation to plans to forecasts to disclosure to complex regulatory to profitability analysis and all the reports and analysis along the way, your entire organization can be aligned and work in one unified application.

Driving Innovation

Run complex calculations on large amounts of data, drill down to details, perform variance analysis, trace data (and adjustments) from start to finish, collaborate and find insights previously shrouded in siloed processes. With workflow and audit trail providing data and process governance, it's all there, all in one solution to provide confidence in the results.

Reduce Cycle Time

Finance needs industry-specific solutions that include built-in financial intelligence to shorten cycle-time, reduce risk, and improve decision-making - with confidence. CCH Tagetik has built-in double-entry accounting logic, currency translation and impact, management, legal and regulatory roll-ups, time dependent hierarchies and more.

Align Operations with Finance

Linking operational metrics to financial outcomes gives finance a complete view of the business. Optimize plans by modeling operational strategies, comparing different business scenarios, collaborating with stakeholders and seeing how decisions impact financial outcomes so you can drive more informed business decisions.

Cloud without Compromise

CCH Tagetik is available on the cloud with full functionality, control, security, compliance and certifications so you can rest assured that your financial data is governed, safe and secure. More so, CCH Tagetik Cloud is infinitely scalable, always available, so you never have to worry about outgrowing it.

Platform for the Future

The platform for all your data: from corporate performance management summary level data to complex regulatory contract level data to granular data for analytics. With in-memory computing and a performant engine that quickly processes high volume data, you have the platform for today and the future needs for AI, machine learning and predictive analytics.

Our services

We specialise in CCH Tagetik and can implement, train and support you on planning, training and implementing your CCH Tagetik solution. We don't just sell the software, we become your partner and provide all the resources required for implementation; project management, consultancy and training.
